After pumping well since completion(9-5-83), and several hot-water treatments the Casing-Head Gas gradually increased to approximately 17-MCFD from TSTM.

We have signed a gas contract with Phillips and they have already staked the gas line to the well. The gas should be in the sales line within the next 90-Days.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
