RE: Application for an Unorthodox  
Gas Well Location, Federal "DH"  
Gas Com Well No. 1; 700' FSL -  
990' FWL, M-11-T18S-R27E,  
Scoggins Draw Morrow Gas Pool,  
Eddy County, New Mexico

Dear Mr. Fisher:

Division Administrative Order NSL-1800, dated April 2, 1984 authorized the subject well as an unorthodox gas well location for all gas-bearing zones below the base of the Wolfcamp formation.

Therefore, your request dated October 23, 1989 to deepen said well from the Strawn formation to the Morrow formation is unnecessary at this time. I am therefore returning your filing. If you should have any questions, please contact me.

Sincerely,

Michael E. Stogner  
Petroleum Engineer
