til be 0.00. Report casing pressure in liqu of tubing pressure for any well producing through casing. Lat criginal and one copy of this report to the district office of the New Mexico Oil Conservation Rule 301 and appropriate pool rules.	No weil will be assigned an allowable greater than the amount of oil produced on the official test. During gassoil ratio test, each well shall be produced at a rate not exceeding the top unit allowable Iscated by more than 15 percent. Operator is encouraged to take advantage of this 25 percent tolerance in ord increased allowables when suthorized by the Division. Gas volumes must be reported in MCF measured at a pressure base of 15.025 pain and a temperature of will be 0.60.							Solt State	Г р 3 с р 3 с р 3 с р 3 с р	5) 2 1]	Assure P. 0.
