

ABSTRACT

New Mexico Archaeological Services, Inc., representing SUN EPXLORATION AND PRODUCTION COMPANY, undertook a Class III survey of Bureau of Land Management lands scheduled to be impacted by the construction of a drill location and access road. Field work was conducted under sunny conditions with scattered, high level, cirrstratus and light westerly winds during mid-morning. The proposed location will measure 400 X 400 ft (actual area surveyed 4.44 acres). The access road will measure 100 X 1600 ft (actual area surveyed 3.78 acres). Total surveyed acreage 8.22 acres. They will be situated in Section 22, T18S, R27E, NMPM, Eddy County, New Mexico. Two isolated manifestations (IM) were recorded during this survey. Clearance is suggested for SUN EXPLORATION AND PRODUCTION COMPANY's proposed work.
