

OTHER REQUIREMENTS OF ORDER 6

The flare line (item 4 of exhibit I) will be equipped with a propane ignition.

The flare gun and flares will be located at the primary briefing station.

Communications for the location will be by Rig Telephone.

Wind direction indicators will be on the rig floor and at one briefing station with at least one visible from all points on the location.

Caution/danger signs and flags will be maintained at all entrances into the location.

A remote controlled choke will be installed, tested, and operational prior to drilling below the surface casing.

WELL TESTING

DST's may be conducted in the Wolfcamp and Morrow formations.
