Re: LDNGC Fireweed 10 Federal Well No. 1
1870' FNL & 660' FEL Sec. 10-T18S-R28E
Eddy County, New Mexico

Gentlemen:

The referenced well was drilled by Amoco Production Company but not completed. Amoco later assigned the well to Altura; Altura transferred the well to Louis Dreyfus Natural Gas Corp. (LDNGC). LDNGC recompleted the well in the Cisco formation and filed completion reports accordingly.

According to the District 2 office of the New Mexico Oil Conservation Division, no logs have been filed for this well. LDNGC ran only a cement bond log. We did receive copies of some Amoco logs; those logs are provided herein for your files. Enclosed are the following logs:

1. Dipole Sonic Gamma Ray
2. Array Induction Dual Laterolog Micro-CFL
3. Natural Gamma Ray
4. Micro-Log Gamma Ray
5. Hydrocarbon Analysis

Sincerely,

LOUIS DREYFUS NATURAL GAS CORP.
