☐ Conversion to Injection
☐ Dispose Water

(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

KCS Medallion Resources, Inc. intends to permit another well, the Shugart West 24 Federal G No. 2 which will be drilled directionally from a surface location 100 ft East and 130 ft North of this location. In order to accomodate the location of the directional well with the least amount of surface area involvement and consequent environmental disturbance it will be necessary to locate drilling the rig on the Shugart West 24 Federal J No. 3 with the "V" door to the West and the reserve pit on the south rather than with the "V" door to the South and the reserve pit on the East as shown in the Special Drilling Stipulations
A revised Location Layout Plat is attached.

14. I hereby certify that the foregoing is true and correct

Signed

Tom Williams
