13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

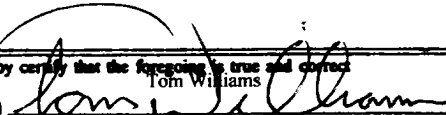

KCS Medallion Resources hereby request an extension of one year for the existing permit on this well.

The APD for this well was filed on 10 September 2001 and the well was originally scheduled to be drilled in late 2001. The APD was not approved until 15 December 2001 and drilling was rescheduled for early 2002. For a number of reasons the drilling has been delayed and now, for all practical purposes, it would be very difficult to commence drilling within the permitted period. KCS intends to schedule this well to be drilled during the first half of 2003.

Approved For 12 Month PeriodExpiration 12/04/03
