Dear Sir:

Please refer to your letter dated December 6, 1961, subject as above, regarding the abandonment of our C. A. Land and Cattle Company No. 1.

The pits have been filled and ground restored to the original contour.

The water well in question was drilled by Lee Drilling Company for use in connection with the drilling of subject well. Upon completion of operations at the landowner's and State Engineer's request, Lee Drilling relinquished their rights to the well to the landowner for use as a source of stock water. We also understand the State Engineer plans to use the well for a water level gauge in the Artesian Water Basin.

Please advise if additional information is needed to complete requirements for abandonment.

Yours very truly,

V. E. Staley  
Area Superintendent
