## DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudlogging jobs, cementing points, and all other important proposed work)

As per our request to plug this well the following is  
the plugging detail.

The 503' of 8-5/8" OD casing was pulled and tubing  
used to set the plugs.

20 sk. plug from 630' to 530'  
 40 sk. plug from 360' to 260'  
 10 sk. plug at surface with marker.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
