

NEW MEXICO OIL CONSERVATION COMMISSION

MISCELLANEOUS REPORTS ON WELLS

Submit this report in triplicate to the Oil Conservation Commission District Office within ten days after the work specified is completed. It should be signed and filed as a report on beginning drilling operations, results of shooting well, results of test of casing shut off, result of plugging of well, and other important operations, even though the work was witnessed by an agent of the Commission. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of report by checking below.

R. 25 E, N. M. P. M.,

Wildcat

Pool

Eddy

County.

The dates of this work were as follows: November 2, 1951

Notice of intention to do the work ~~was~~ (was not) submitted on Form C-102 on....., 19....., and approval of the proposed plan ~~was~~ (was not) obtained. (Cross out incorrect words.)

DETAILED ACCOUNT OF WORK DONE AND RESULTS OBTAINED

We encountered sulphur water from 972-985'. We developed a crook in the hole between 985 & 1010', and eventually shot with 120 quarts nitroglycerine from 1010' back to 979' to straighten the hole. We then lost a bit and fishing lug at the bottom of the shot hole cleaning out and were able to get the tools over to the side of the hole. We ran 10 3/4" casing to 1019' cemented with 100 sack of cement. Hole was dry below 10 3/4" casing, and fish was sidetracked.
