## DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

Pursuant to our telephone conversation we ask permission to drill the above designated well to a depth of approximately 2700 feet. The original application was made to drill to an approximate depth of 1800 feet but when that depth was reached the well was barren and we desire to proceed to test lower zones.
