HISTORY OF OIL OR GAS WELL

It is of the greatest importance to have a complete record of the work done in the well. Please state in detail the dates of running, repairing, and other work done in the well. If there were any changes made in the casing, state fully, and if any casing was "sidetracked" or left in the well, give its size and location. If the well has been dynamited, give date, size, position, and number of shots. If plugs or bridges were put in to test for water, state location and purpose of plug or bridge.
