Dwane Parrish Jr.  
1306 S. 9th Street  
Artesia, NM.88201

Re; Properly abandoned wells;

Dear Dwane;

The state of New Mexico is in the process at this time of reviewing leases to determine the number of abandoned and shut in wells.

Rule 201 A. states " The operator of any well drilled for oil, gas or injection, for seismic, core or other exploration, or for a service well, whether cased or uncased, shall be responsible for the plugging thereof."

Rule 201 B. A well shall be either properly plugged and abandoned or temporarily abandoned in accordance with these rules within (90) days after (1) a 60 day period following suspension of drilling. (2) A determination that the well is no longer usable for beneficial purposes. (3) A period of 1 year in which a well has been continuously inactive.

House Bill 65 has been passed by the legislature and provides some tax incentives for wells put back in production. However, if there are no plans to put a well or wells back in service then plugging or proper temporary abandonment will be required.

Please forward to the NMOCD office in Artesia by January 2, 1998 a plan to bring the following list of wells into compliance with rule 201.

Yours truly,  
*Tim W. Gum*
