Re: Estoril Producing Corporation
Shell Federal A-1, Section 1,
T-20S, R-28E, Eddy County,
New Mexico

Dear Mr. Gressett:

In reference to the drilling of the above well, Marcum Drilling Company started said well on August 18th and continuously drilled said well until the rig was released at 12 noon on September 28th or a total of 42 days. Previous well records show that our rig power on this well uses approximately 168 mcf per day.

If additional information is required, please advise.

Yours truly,

Gordon G. Marcum, II
