# THE HISTORY OF THE UNITED STATES

CHAPTER I

THE DISCOVERY OF AMERICA

It is a well-known fact that the discovery of America was made by Christopher Columbus in 1492. He was an Italian explorer who sailed across the Atlantic Ocean in search of a new route to the East Indies. His voyage was sponsored by the Spanish monarchs, Isabella and Ferdinand.

On October 12, 1492, Columbus landed on the island of San Salvador.

He was the first European to set foot on the continent of North America.

His discovery opened up a new world for exploration and settlement.

Over the years, many other explorers followed in his footsteps, including Amerigo Vesputi and John Cabot.

The discovery of America was a turning point in the history of the world.

It led to the establishment of new colonies and the growth of the United States.
