Mr. L. A. Hanson  
321 Carper Building  
ARTESIA, NEW MEXICO

Dear Mr. Hanson: RE: Jones & Watkins State No. 6 Well,  
SW NE 5-19S-29E, Eddy County, N. M.

This morning we had a request from the State Land office for a determination of the status of the captioned well. Mr. W. W. Byers wrote the Land Office well over a year ago and said that the well had recently been plugged. However, our well file contains no Form C-103 showing plugging. In fact, the last form filed is a C-110 dated October 26, 1951, showing Artesia Pipe Line Company connection.

Will you please send a copy of your reply to Mrs. Crook of the Land Office, so that she may complete her records?

Thanks very much for your help.

Sincerely,

OIL CONSERVATION COMMISSION
