Notice must be given to the Oil Conservation Commission or its proper agent and approval obtained before drilling begins. If changes in the proposed plan are considered advisable, a copy of this notice showing such changes will be returned to the sender. Submit this notice in triplicate. One copy will be returned following approval. See additional instructions in Rules and Regulations of the Commission.

Leonard Oil Company

Roswell, New Mexico

2-6-51

Place

Date

OIL CONSERVATION COMMISSION,
Santa Fe, New Mexico,

Gentlemen:

You are hereby notified that it is our intention to commence the drilling of a well to be known as

Leonard Oil Company

B-9739

Well No. 2

in BLAND

Company or Operator

Lease

Track

of Sec. 12, T. 19S, R. 29E, N. M. P. M., East Turkey Field, Eddy County.

N

The well is 330 feet (N) (S.) of the N line and 330 feet

W (W.) of the E line of Sec. 12

(Give location from section or other legal subdivision lines. Cross out wrong directions.)

If state land the oil and gas lease is No. B-9739 Assignment No. 8

If patented land the owner is - -

Address - - - - -

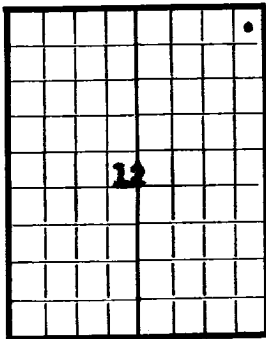

If government land the permittee is - -

Address - - - - -

The lessee is Leonard Oil Company

Address Box 872, Roswell, New Mexico

We propose to drill well with drilling equipment as follows: Cable Tools.

AREA 640 ACRES

LOCATE WELL CORRECTLY

The status of a bond for this well in conformance with Rule 39 of the General Rules and Regulations of the Commission is as follows: Blanket Bond.

We propose to use the following strings of casing and to land or cement them as indicated:

Size of Hole	Size of Casing	Weight Per Foot	New or Second Hand	Depth	Landed or Cemented	Sacks Cement
	<u>5-5/8"</u>	<u>32#</u>	<u>SH</u>	<u>Approx 300'</u>	<u>Cemented</u>	<u>50 Sacks</u>
	<u>7"</u>	<u>20#</u>	<u>SH</u>	<u>4000'</u>	<u>Cemented</u>	<u>50 Sacks</u>

If changes in the above plan become advisable we will notify you before cementing or landing casing. We estimate that the first productive oil or gas sand should occur at a depth of about - - - - - feet.

OIL AND GAS INSPECTOR

Title

1. The first part of the report is a general introduction to the subject of the study. It discusses the importance of the study and the objectives of the research.

2. The second part of the report is a detailed description of the methodology used in the study.

The methodology section describes the research design, the data collection methods, and the data analysis techniques. It also discusses the limitations of the study and the potential for future research.

The results of the study are presented in the third part of the report. This section includes a summary of the findings and a discussion of their implications.

The conclusion of the study is presented in the fourth part of the report. This section summarizes the main findings and provides recommendations for future research.

The bibliography is located at the end of the report. It lists the sources used in the study.

The appendix is located at the end of the report. It contains supplementary material that is not included in the main text.

The index is located at the end of the report. It provides a list of the topics covered in the report and the pages on which they are discussed.

The list of figures is located at the end of the report. It provides a list of the figures included in the report and the pages on which they are located.

The list of tables is located at the end of the report. It provides a list of the tables included in the report and the pages on which they are located.

The list of abbreviations is located at the end of the report. It provides a list of the abbreviations used in the report and their full names.

The list of symbols is located at the end of the report. It provides a list of the symbols used in the report and their meanings.

The list of units is located at the end of the report. It provides a list of the units used in the report and their meanings.

The list of definitions is located at the end of the report. It provides a list of the definitions used in the report and their meanings.

The list of references is located at the end of the report. It provides a list of the references used in the report and their full names.

The list of acknowledgments is located at the end of the report. It provides a list of the people who helped in the study and their names.

The list of dedications is located at the end of the report. It provides a list of the people to whom the study is dedicated and their names.

The list of prefaces is located at the end of the report. It provides a list of the prefaces used in the report and their meanings.

The list of afterwords is located at the end of the report. It provides a list of the afterwords used in the report and their meanings.

The list of appendices is located at the end of the report. It provides a list of the appendices used in the report and their meanings.

The list of indexes is located at the end of the report. It provides a list of the indexes used in the report and their meanings.

The list of symbols is located at the end of the report. It provides a list of the symbols used in the report and their meanings.

The list of units is located at the end of the report. It provides a list of the units used in the report and their meanings.

The list of definitions is located at the end of the report. It provides a list of the definitions used in the report and their meanings.

The list of references is located at the end of the report. It provides a list of the references used in the report and their full names.

The list of acknowledgments is located at the end of the report. It provides a list of the people who helped in the study and their names.

The list of dedications is located at the end of the report. It provides a list of the people to whom the study is dedicated and their names.

The list of prefaces is located at the end of the report. It provides a list of the prefaces used in the report and their meanings.

The list of afterwords is located at the end of the report. It provides a list of the afterwords used in the report and their meanings.

The list of appendices is located at the end of the report. It provides a list of the appendices used in the report and their meanings.

The list of indexes is located at the end of the report. It provides a list of the indexes used in the report and their meanings.

The list of symbols is located at the end of the report. It provides a list of the symbols used in the report and their meanings.

The list of units is located at the end of the report. It provides a list of the units used in the report and their meanings.

The list of definitions is located at the end of the report. It provides a list of the definitions used in the report and their meanings.

The list of references is located at the end of the report. It provides a list of the references used in the report and their full names.

The list of acknowledgments is located at the end of the report. It provides a list of the people who helped in the study and their names.

The list of dedications is located at the end of the report. It provides a list of the people to whom the study is dedicated and their names.

The list of prefaces is located at the end of the report. It provides a list of the prefaces used in the report and their meanings.

The list of afterwords is located at the end of the report. It provides a list of the afterwords used in the report and their meanings.

The list of appendices is located at the end of the report. It provides a list of the appendices used in the report and their meanings.

The list of indexes is located at the end of the report. It provides a list of the indexes used in the report and their meanings.

The list of symbols is located at the end of the report. It provides a list of the symbols used in the report and their meanings.

The list of units is located at the end of the report. It provides a list of the units used in the report and their meanings.

The list of definitions is located at the end of the report. It provides a list of the definitions used in the report and their meanings.

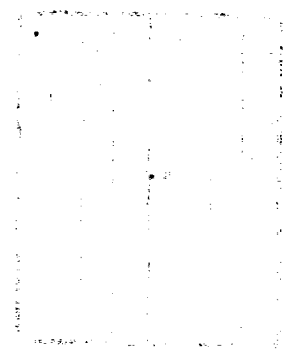

Figure 1: A diagram showing a grid of points with lines connecting them, possibly representing a network or a flow chart.

The diagram illustrates the structure of the data set used in the study. It shows the relationships between the different variables and the outcomes.

The diagram is a simplified representation of the complex data set. It highlights the key relationships and the flow of information.

The diagram is a visual aid for understanding the data set. It helps to identify the patterns and the trends in the data.

The diagram is a useful tool for analyzing the data. It provides a clear and concise summary of the information.

The diagram is a key component of the study. It is essential for understanding the results and the conclusions.

The diagram is a valuable resource for future research. It provides a foundation for further exploration and discovery.

The diagram is a testament to the power of data. It shows how information can be organized and presented in a way that is easy to understand.

The diagram is a masterpiece of data visualization. It is a work of art that combines science and aesthetics.

The diagram is a shining example of the art of data. It is a testament to the skill and creativity of the researcher.
