Re: Our Federal "G" well No. 3 Yates
and Queen located in the Shugart
(Y. SR. Q. G.) Field, Eddy County,
New Mexico

Gentlemen:

In the Shugart Field we have our Federal "E" well number 3 which is a dual well producing from the Yates and Queen formation. We would like to pull the tubing on the Yates zone and produce just the Queen.

Would you give us permission to produce these two zones together with one allowable.

Yours very truly,

JOSEPH I. O'NEILL, JR.
