Mr. Harvey E. Yates  
309 Carper Building  
Artesia, New Mexico

Dear Mr. Yates:

Your application of August 23rd in which you state you would like to use your State No. 1, NW $\frac{1}{4}$ NE $\frac{1}{4}$  16-19S-30E, as an input water well has been received and pending approval we request that you furnish us geological logs of the three wells drilled in this section showing the proper casing points, etc. Also on the log of your proposed input well show where you intend to set the packer.

The Commission is in favor of projects of this type and I am quite sure if it can be shown that the producing horizon will be benefitted by the input of this water, we will approve your application.

Very truly yours,

John M. Kelly  
Director.
