Well No. 1 is located 1980 ft. from *N* line and 660 ft. from *E* line of sec. 17
NE/4 19S. 30E. N.M.P.M.
(1/4 Sec. and Sec. No.) (Twp.) (Range) Meridian
Wildcat *Eddy* *New Mexico*
(Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is _____ ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

On July 5, 1946 355 ft. of 28" 8 1/2" O.D. casing was set into the top of the salt on the above captioned and cemented with 50 sacks of cement, and mud circulated to the surface. After allowing to set seventy-two hours, plug was drilled, water shut-off tested, and drilling resumed when it was determined that shut-off had been effected.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
