

Rec'd. 9-27-67
(1) Sonic Log

Oxford

STOCK No. 773 1/2

MADE IN U. S. A.

Injection is to be through the eight authorized water injection wells, each of which shall be equipped with plastic-coated tubing set in a packer, said packer being set within 100 feet of the top of the perforations in the lower formation. The casing-tubing annulus shall be filled with cement fluid and left open or equipped with a pressure gauge to facilitate detection of tubing or packer leakage.
