Re: LeBow Federal
#11-O-25-19-30
North Hackberry-
Yates-Seven Rivers Pool

Gentlemen:

According to our well file, the above captioned well has been shut-in since 1976.

An allowable has not been issued for this well so it is not being carried in the proration book.

Before an allowable can be issued, you need to file the Federal Sundry report showing what was done and when the well was brought on production.

Our office will need a copy of this and the form filled out stating how much allowable is being requested.

Sincerely,

A handwritten signature in cursive script, reading "Leslie A. Clements".
