..... January 18,, 19 57

Federal Title
Well No. A-1 is located 300 ft. from (N) line and 300 ft. from (E) line of sec. 28
SW/4 SW/4 28 T-10 N 30 E 100W
(1/4 Sec. and Sec. No.) (Twp.) (Range) (Meridian)
Red Hills Elk New Mexico
(Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is 3770 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

We would like to plug and permanently abandon this well. As cement was circulated there is no possibility of recovering any casing. Would like to spot 15 sacks cement in bottom - and to 20' - Put cement plug in top and set 4" marking pipe - protruding 5' above surface.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
