State of New Mexico,
Oil Conservation Commission,
Santa Fe, New Mexico.

Gentlemen:

Herewith copy of Notice of Intention to Drill an unorthodox well located 1320' from the West line and 10' from the South line of Section 12, Twp. 18-S., Rge. 31-E., Eddy County, New Mexico. This is in the North Shugart Field and is in the approximate center between four producing wells, all drilled in the center of 40 acre tracts. This is our first experience in requesting a permit for a well located in this manner and we are under the impression that in order to get an allowable established for the well some kind of a special hearing may be necessary. If such a hearing is necessary please consider this letter and the attached notice as an application from us to have such a hearing called. We will be glad to supply you immediately with any other data required. We are very anxious to get the well started just as promptly as possible.

Since we do not know exactly how to proceed in the matter we will appreciate any help that you or any of the other interested parties can and will give us. We are enclosing a copy of our letter to the U.S.G.S. pertaining to this matter and are also sending the parties at interest, as listed below, a copy of this letter.

Thanking you for your help in the matter, we are

WDM/p
Encl.

Yours very truly,

CC
Oil Conservation Commission,
