Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Produced water injection into this well has become uneconomical and injection was shut down on 2/27/76. This well will remain in a shut-in status until such time as it is needed to dispose of produced water from the Swearingen "B" and Panco Federal leases. The Panco Federal #2 WIW is presently disposing of produced water from the Swearingen Waterflood project.
