Dear Sir:

Enclosed for the Division of Geology and Mineral Resources are two copies of a report titled "Geological Map of the Washington, D.C. Area, 1:50,000 Scale". The report was prepared by the Geological Survey of the District of Columbia and the United States Geological Survey. The map shows the geological features of the Washington, D.C. area, including the Potomac River, the Annapolis River, and the various geological formations. The map is a valuable tool for understanding the geology of the area and for planning future development.

Very truly yours,

Director, Division of Geology and Mineral Resources
