(NOTE: Report results of multiple completion on Well  
Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Since we have had a problem in shutting off the water in this well, we feel all parties will best be served by converting it from a producing well to a water injection well.

Proposed operations will include pulling rods and tubing, setting plug at 3,229'; re-running tubing on packer, setting packer at 2,940', hooking well to injection pump. Anticipated date this work will be performed is Thursday, March 30, 1967.
