17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

T. D. 3,762' 7" @ 2,725' Completed in Yates pay zone

This well T.A. September 1, 1974 and abandonment approved by USGS September 20, 1974.
This temporary order expires December 1, 1974.

We are studying the possibility of running a liner and completing for oil and gas in the Queens, Penrose, or Premier zones of the Grayburg for future waterflood response. Waterflood operations are being conducted in these zones on offset leases.

Therefore, we request an extension for as long as possible to the order that expires December 1, 1974.
