Attention: Mr. Gressett

Dear Sir:

Reference is to your note attached to the approved copy of the New Mexico Oil Conservation Commission Form C-103 filed by Shenandoah on August 17, 1972.

The upper tubing (Yates) will continue to be produced.

I am enclosing, for your information a copy of the recently revised plat which shows the status of this well indicating the Yates Formation to be producing and injection will be in the Penrose Section. Also, you will notice that the flood pattern is shown for the expansion program of which this well is a part of.

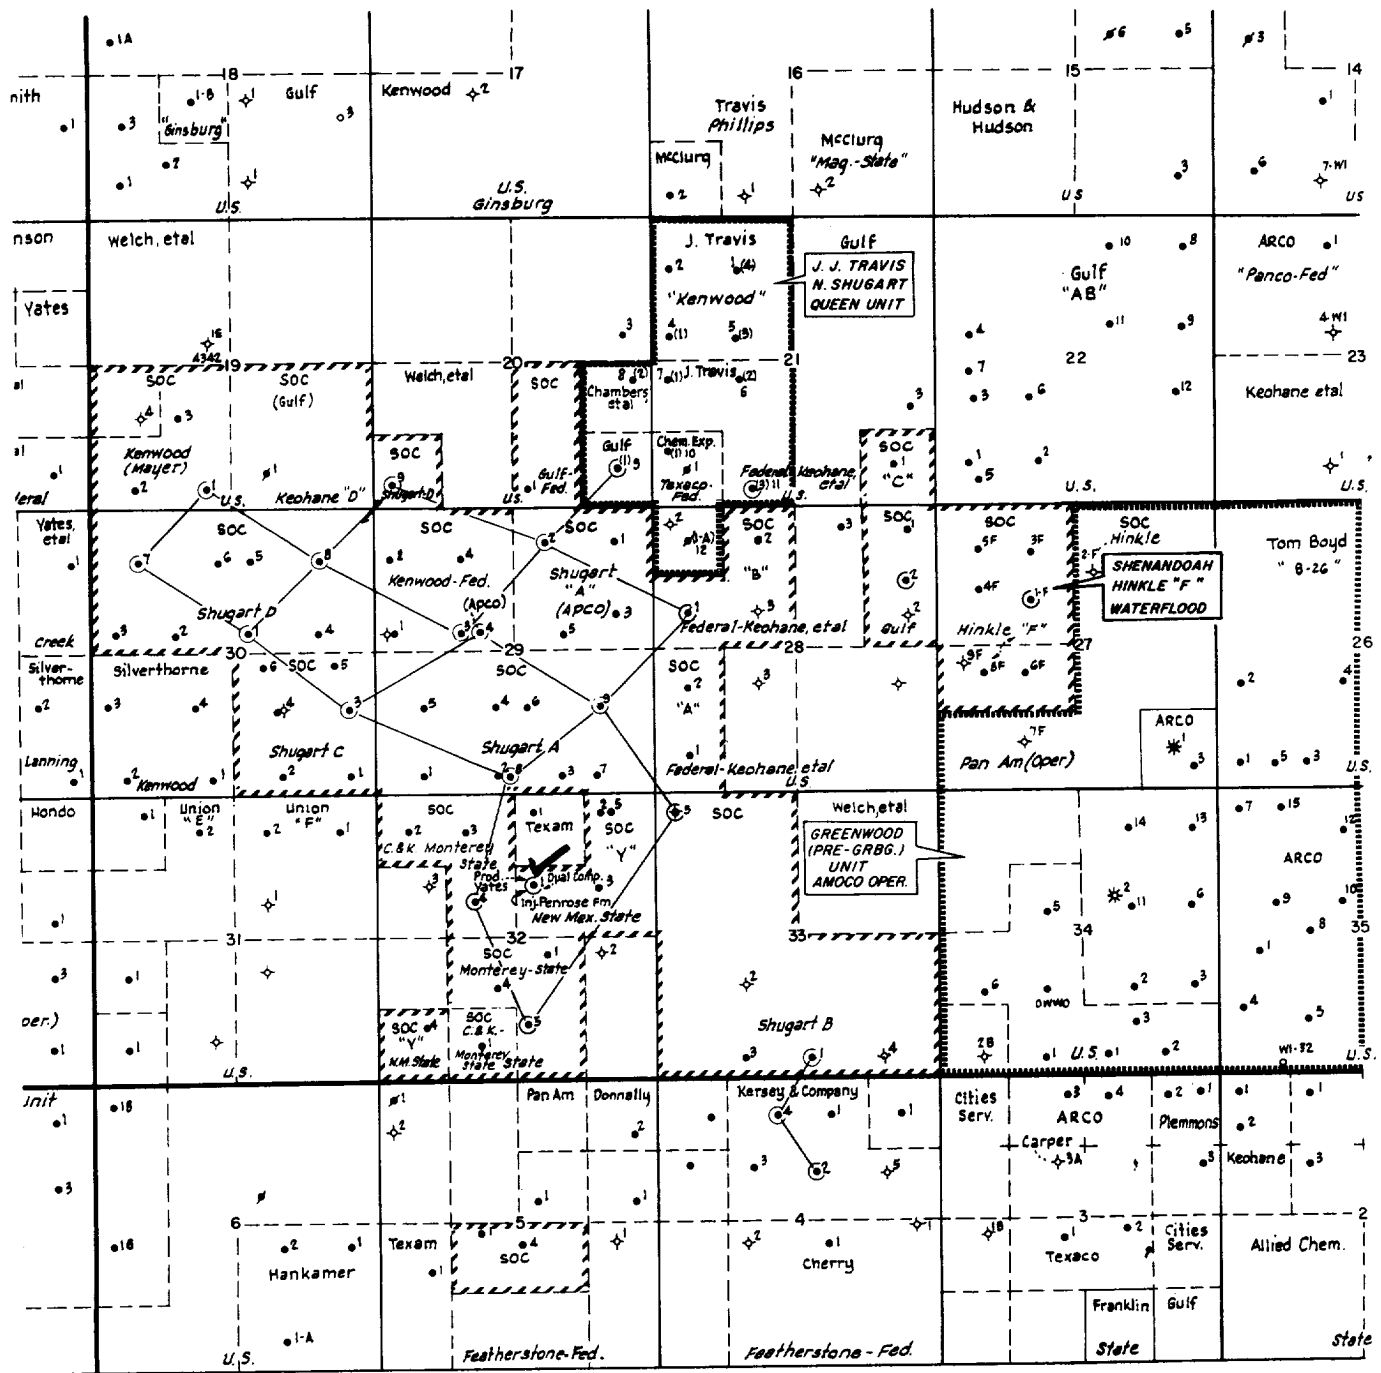

Very truly yours,

SHENANDOAH OIL CORPORATION
