Re: State Wells 1-I and 2-H,
Sec. 36-18S-31E, Watkins
Pool, Eddy County, New Mex.

Attention: Mr. H. N. Sweeney

Gentlemen:

On January 26, 1956, this office received and approved a form C-102 "Notice of Intention to Plug" for each of the subject wells. Since that time we have received no other communications on these wells. However, a recent field inspection reveals that the wells have been plugged. At that time it was noted that one dead man loop had not been cut and that the quarter-quarter section description had not been shown on the well signs in accordance with commission rules and regulations. As soon as this work has been done please submit three (3) copies of form C-103 for each well, outlining the plugging operation and showing where plugs were placed, how much pipe was pulled, etc.

Thanking you in advance for your cooperation in this matter.

Very truly yours,

OIL CONSERVATION COMMISSION

R. L. Stamets
