(Field)

Hedden

(County or Subdivision)

(State or Territory)

The elevation of the derrick floor above sea level is 3591 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

We propose to drill this well with Cable tools to an approximate depth of 3450' unless commercial production is found at a lesser depth.

Well will run approximately 900' of 8 5/8" O. D. casing and cement with 50 sacks.

A 5 1/2" O. D. production string will be run if production is found.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

Company Carper Drilling Company, Inc.
