CASING RECORD

Number of wells	Threats to them	Damage	Amount of water used	Kind of pipe used and kind of material used	Performance	Purpose
1	It is of the greatest importance to have a complete history of the well. Please state in detail the dates of boring, together with the reasons for the work and its results. If there were any changes made in the casing, state why, and if any casing was "sidetracked" or left in the well, give its size and location. If the well has been dynamited, give date, location, and number of shots. If plugs or bridges were put in to test for water, state kind of material used, position, and results of pumping or balling.
