

TEXAS OIL & GAS CORP.

900 WILCO BUILDING

MIDLAND, TEXAS 79701

January 26, 1979

New Mexico Oil Commission

I was wondering whether you could help me with the attached well. In the books the only production we can find is under undesignated Eddy and it does not show what zone it is producing from. We were wondering if all three zones had been added together in the books or where the other two zones production would be located. The well completed in 1962 and was plugged in 1965. Any help you could give me on the attached would be greatly appreciated.

Thank you very much,

Vickie Williams
