Gentlemen:

On March 1, 1961, I received a Form C-103 on the dry hole you drilled in Unit A of Section 32-19S-31E. Our field inspector, Mr. Gressett, has been to the location a number of times and finds the location not cleaned, the pit has oil in it, and no fence.

He also found that a bull had been burned in one of the pits. We want this location cleaned at once.

Very truly yours,

OIL CONSERVATION COMMISSION

On March 1, 1961, I received a Form 3-103 on this date from the
Director of the Bureau of the Census, Washington, D.C. The letter
stated that the Bureau had received information from the
Director of the Federal Bureau of Investigation (FBI) that
there was a possibility that the location of the
subject was in the area of the Washington, D.C. area.

some of the things that are at hand need had first a test house on all
some to be made a waterproof etc
