Attention: Mr. M. L. Armstrong
Supervisor District # 2

Dear Mr. Armstrong:

In regard to your letter directed to myself and Jack L. McClellan pertaining to our No. 1 Mach^{is} in the NE¹/₄NE¹/₄ of Section 32, Township 19 South, Range 31 East, Eddy County, New Mexico, please be advised that I cleaned this location one time, but in moving, the tanks from the location some oil was spilled in the pit and subsequently, a bull calf was killed from drinking the oil in this pit. I was not informed until the bull calf was killed that the oil was in the pit or I would certainly have cleaned the oil up. I have made restitution to the landowner for the destruction of the bull calf and I am at this date re-cleaning the location. I do have some pipe left at the location which I intend to leave until such time as I am able to use it. Please advise me if this meets with the State's approval.

Very truly yours,

Len Mayer
