DETAILS OF WORK

D. C. C.
ARTESIA, OFFICE

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudlogging jobs, cementing points, and all other important proposed work)

Propose to drill to approximately 1850 feet to test Grayburg Formation. Will set surface pipe at top of salt (approx. 700 feet), and propose to circulate on surface pipe with mud to surface and follow with 50 sacks cement, and then drill out to total depth. If production is obtained, will circulate mud to surface on production casing and follow with 150 sacks of cement in order to return cement back through base of salt.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

FORM C-128
 Revised 5/1/57

SECTION A

Operator Len Mayer			Lease Kennwood - Federal		Well No. 2
Unit Letter M	Section 19	Township T-18-S	Range R-31-E	County Saggy	
Actual Footage Location of Well: 130 feet from the South line and 894 feet from the West line					
Ground Level Elev. 3631	Producing Formation		Pool	Dedicated Acreage: 40 35.21 Acres	

1. Is the Operator the only owner in the dedicated acreage outlined on the plat below? YES _____ NO _____. ("Owner" means the person who has the right to drill into and to produce from any pool and to appropriate the production either for himself or for himself and another. (65-3-29 (e) NMSA 1935 Comp.)
2. If the answer to question one is "no," have the interests of all the owners been consolidated by communitization agreement or otherwise? YES _____ NO _____. If answer is "yes," Type of Consolidation _____
3. If the answer to question two is "no," list all the owners and their respective interests below:

Owner	Land Description

SECTION B

CERTIFICATION

I hereby certify that the information in SECTION A above is true and complete to the best of my knowledge and belief.

Name Len Mayer
Position Operator
Company Len Mayer
Date August 10, 1963

I hereby certify that the well location shown on the plat in SECTION B was plotted from field notes of actual surveys made by me or under my supervision, and that the same is true and correct to the best of my knowledge and belief.

Date Surveyed August 12, 1963
Registered Professional Engineer and Land Surveyor James Hewitt Jr.
Certificate No. 3280

INSTRUCTIONS FOR COMPLETION OF FORM C-128

1. Operator shall furnish and certify to the information called for in Section A.
2. Operator shall outline the dedicated acreage for *both* oil and gas wells on the plat in Section B.
3. A registered professional engineer or land surveyor registered in the State of New Mexico or approved by the Commission shall show on the plat the location of the well and certify this information in the space provided.
4. All distances shown on the plat must be from the outer boundaries of the Section.
5. If additional space is needed for listing owners and their respective interests as required in question 3 of Section A, please use space below.
