O. C. C.  
ARTESIAL OFFICE

The lower zone gas well in the Lusk (Morrow) Pool is a shut-in gas well awaiting market outlet. We sincerely apologize for overlooking the fact that the proper dual completion forms for this well had not been submitted by Delhi-Taylor. The application for dual completion and packer leakage tests will be prepared and submitted promptly. Since we have no one in our organization who was present when the packers were set, we will submit the packer setting affidavits showing the packers to have been set by Delhi-Taylor as shown in our well record files.

Thank you for calling this oversight to our attention and we trust that this handling will meet with your approval.

Yours very truly,

TENNECO OIL COMPANY

A. W. Lang  
District Production Superintendent
