Re: GOR test due on or before  
**December 10, 1963. Bass,  
Well #1 I, 12-19-28, East  
Millman-Queen-Grayburg Pool.**

Under the provisions of Rule 301, Commission's Rules & Regulations, a gas-oil ratio test must be taken on the subject well and filed on Form C-116 in the Artesia Office New Mexico Oil Conservation Commission. The test must be taken not sooner than 30 days nor later than 60 days following the completion of the well. Paragraph (d) of Rule 301 provides that: "during gas-oil ratio test, each well shall not be produced at a rate exceeding top unit allowable for the pool in which it is located by more than 25 percent. No well shall be assigned an allowable greater than the amount of oil produced on official tests during a 24-hour period."
