and having full knowledge of the facts hereinbelow set out do state:

That I am employed by MONSANTO COMPANY in the

in MONSANTO COMPANY, Dagger Draw,

~~TEXAS~~

feet, said depth measurement having been furnished me by Bateman-

Whitsitt, Inc.; that the purpose of setting this packer was to
effect a seal in the annular space between the two strings of pipe where the
packer was set so as to prevent the commingling, in the bore of this well, of
fluids produced from a stratum below the packer with fluids produced from a
stratum above the packer; that this packer was properly set and that it did,
when set, effectively and absolutely seal off the annular space between the
two strings of pipe where it was set in such manner as that it prevented any
movement of fluids across the packer.
