

March 15, 1965

Tenneco Oil Company
P. O. Box 1031
Midland, Texas

Re: Forms C-104

Gentlemen:

Enclosed you will find your copy of forms C-104, filed to show change in oil transporter, which have been approved. You will notice we filled in the gas transporter or disposition of gas, if any, and also the name of the previous oil transporter. Hereafter, when it is necessary to file form C-104, please include this information.

There were also forms C-104 received on the following two(2) wells, which we were unable to approve for the following reasons:

Jones Federal "E", Well #1, Unit H, 23-19S-31E

Form shows gas was connected February 18, 1965, but there is no C-110 or C-104 in our file showing the gas transporter.

Sweeney Federal, Well #1, Unit M, 13-19S-31E

Form shows gas was connected February 18, 1965, but there is no C-110 or C-104 in our file showing the gas transporter.

If you will send the above needed information, we will complete the forms submitted on these two (2) wells, they can be approved and distributed.

Very truly yours,

OIL CONSERVATION COMMISSION

M. L. Armstrong

MLA/uh

March 11, 1964

Mr. J. Edgar Hoover
Federal Bureau of Investigation
Washington, D. C.
