13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

TEMPORARY ABANDONMENT STATUS EXTENSION:

1. A C. I.B.P. is set at 4820'.
2. A Mechanical Integrity Test (Pressure Test) O.K. 3/14/97
3. Rationale: Recent work on the Bone Spring interval in the area continues. An offset well was recently drilled and the D.S.T. in the Bone Spring was promising. Further drilling in the area is planned for May 2001 which will test the Bone Spring to the North and East of this location. The permanent plugging of this well could result in lost reserves.
