Eddy County, NM

Gentlemen:

We hereby acknowledge receipt of your letter dated June 15, 1976 requesting an exception to the annual shut-in pressure test requirements on the subject well.

According to our records this is the only well in the West Lusk-Morrow Gas Pool, therefore I do not quite understand your statement that other wells in the field have never resumed producing at as high a rate as prior to being shut-in. Please clarify this matter.

Further, according to your production report Form C-115, the well is only producing a few days each month, therefore, I do not understand why you can't take the test.

Sincerely yours,

W. A. Gressett
Supervisor-District II
