Re: Non-standard location
Catclaw "AGM" State Com. #2
600' FSL & 600' FWL
Section 2, T20S-R24E
Eddy County, New Mexico

Dear Mr. Stogner:

Yates Petroleum Corporation request administrative approval for the non-standard location as provided for under NMOC Rule 104F.

The reason for requesting this non-standard location is that we will be re-entering a dry hole of Standard Oil Company of Texas, the State 2 #1 well which was plugged on December 10, 1965. We wish to re-enter and deepen the well to test the North Dagger Draw Upper Penn and intermediate formations. The legal location would be 660' FSL and 660' FWL, but this well is 600' FSL and 600' FWL. It will be much more economical to re-enter this well to test the wellbore and it will benefit the surrounding area.

Yates Petroleum Corporation is the operator and a leasehold owner of all lands surrounding this well. Enclosed please find a copy of a plat (Form C-102) of the Catclaw "AGM" State Com. #2 and a lease map with the land dedication and well location.

If you have any questions concerning this matter, please give me a call. Thank you.

Very truly yours,

YATES PETROLEUM CORPORATION

Ken Beardemphl
