Re: Sullivan Federal Well No.1-M,
5-19-24, Wildcat Morrow Gas
Pool, Eddy County, New Mexico

Gentlemen:

Enclosed please find a corrected copy of Form C-122, Gas Well Test Report, for the subject well. The corrections were made from the two inch orifice well tester data shown in the Commission Gas-Oil Ratio Test Manual. Other corrections and remarks are noted in red. If I have made any errors in these corrections, please so advise.

It is requested that you complete and return two (2) copies of the enclosed Form C-123s. A single set of the mechanical logs run on this well should accompany these forms.

~~Further, before an allowable may be assigned the well, two notarized copies of the tabulation of deviation tests must be submitted and approval of the well's non-standard location obtained.~~ Please refer to Rule 104 B,I,(b), second paragraph, for information relative to obtaining approval of this well's non-standard Pennsylvanian gas well location.

If there are any questions on these matters, please do not hesitate to call upon me.

Very truly yours,

OIL CONSERVATION COMMISSION

R. L. Stamets
