MIDLAND, TEXAS 79701

September 26, 1972

Mr. B. B. Haines
Mr. Emil Bach
Star Route East
Artesia, New Mexico 88210

Gentlemen:

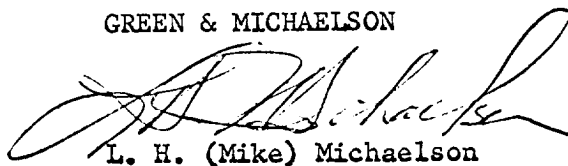

Enclosed will be found affidavits to convert Green & Michaelson's #1 Red Tank to water well use. Within the next few days, it will be necessary for Green & Michaelson to finish cleaning up the pits, drying them out, so that we restore the land in as good as shape as possible.

I am enclosing four copies of this affidavit, and as soon as you execute the bottom part and have it notarized, two copies should be taken to the New Mexico Oil Conservation Commission in Artesia. One copy needs to be returned in the enclosed envelope and one copy kept for your records.

There is excellent casing left in the hole and adequate cement so that this should make you an excellent water well. We have plugged back with cement to a total depth of 1850' and left good mud from 1850' back to the surface. This should not create a problem of cleaning out the well.

Yours truly,

GREEN & MICHAELSON

L. H. (Mike) Michaelson
