Re: Parkway West Unit Well No. 1  
Eddy County, New Mexico

Dear Mr. Gressett:

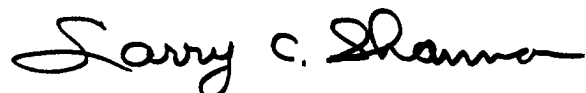

Enclosed please find copies of Form C-103 and C-105 that apply to the completion of the subject well.

Please be advised that Cone & Kerley, Inc. made a typographical error in their typing of the Form C-122 for the multipoint back pressure tests for both the Strawn and Atoka zones. On the Form C-122 for the Strawn zone, this well was shut in for 11 hours, then flowed for one hour on each of the four flow rates. On the Form C-122 for the Atoka zone, this was shut in for 48 hours and flowed one hour for each of the four producing rates. You explained in our recent telephone conversation that you could make this correction on the forms you have in your Artesia office.

Thank you for your consideration.

Very truly yours,

THE PETROLEUM CORPORATION

Larry C. Shannon
