ARTESIA, OFFICE

Gentlemen:

As requested, attached is a copy of the temperature survey ran on our Rena Shugart No. 1-C, Section 1, 20-S, 25-E, which shows the top of cement at 440' after cementing with 770 sacks, however we would like to point out, as reported on Form C-103, dated March 21, 1973 and witnessed by your Leland Mermis, the casing was then cemented to surface with an additional 275 sacks.

Yours truly,

BY:

C. D. BORLAND
