New Mexico Oil Conservation Commission  
P. O. Drawer DD  
Artesia, New Mexico

Attention: Mr. W. A. Gressett  
Supervisor, District II

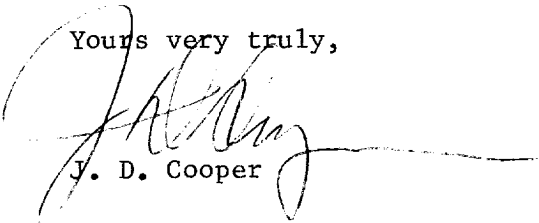

O. C. C.  
ARTESIA, OFFICE

Gentlemen:

Enclosed is an amended Form C-102 Acreage Dedication Plat, for the Dorchester-DWU Federal No. 2. This well was originally filed as a Morrow test with a 320 acre dedication, but was completed as a Wolfcamp well.

In accord with New Mexico Oil Conservation Commission regulations, we are filing the amended C-102 for Wolfcamp dedication in the Winchester-Wolfcamp Field. However, Dorchester has filed application for hearing for a new pool and pool rules therefor the Wolfcamp zone in the DWU Federal No. 2, and this amended Form C-102 is being filed subject to the Commission's decision on Dorchester's application for a new pool classification.

Yours very truly,

J. D. Cooper
