(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Fasken Oil and Ranch, Ltd. respectfully requests authority to report well production as the sum of the wellsite sales meter and the compressor fuel gas meter. Also, requested is approval to reroute the fuel gas line supplying the dehydrator such that the fuel gas is taken down stream of the fuel gas meter. Attached are current and proposed surface facility diagrams.

This notice will rescind the previous approval of both the current and proposed schematic dated 3-3-97. The high pressure start gas line should be removed from the high pressure separator and the low pressure line should be connected to the gas sales line. See the attachment.

Alexis C. Svoboda 6/18/97

14. I hereby certify that the foregoing is true and correct
